

Love Me

VERSE 1

You got me thinking of you, in every step I take,
I'm running out of control, with every move I make.
So go ahead, electrify my body,
the night lights, they got me feeling naughty.

CHORUS

You love me like you do it baby,
got me feeling bad when you come to me, this is killing me,
You love me like you do it and hold me close to you
giving love to me, this is killing me

VERSE 2

You asked me for a chance to start a new romance,
this is what I can do: Just go away you fool!
You got a first chance, you got a second chance,
you want a third chance, now I stop it.
