If you can think of the joy and love of reunion in the heaven,
 are you willing to bring that joy and love to the earth?
 If you can love generously in the heaven, would you do that in the earth too?
 Why do you keep all the best until you can't bring anymore positive change to the earth?
 Do what you can today-- to bring love, joy and peace to the earth!
 Heaven is not a place, it's a state of mind. If you can keep staying in love, you're in heaven now!
