Calmly

l.v. sempre

⑥ = F

*You can end it here, or...
you can go back and repeat it one more time.
Actually you can repeat it as many times as you want.
You can play non stop if you like, until your shoulders hurts.
And even if the pain goes away, you can still keep playing until
the strings are loose or broken.
To be honest you can play this pitiful piece of music
again and again until the end of your days...
Your choice.
