HEAVEN

Show me the place that everybody knows that is called heaven
I travelled the world so far in searching for a sign

Show me the place that everybody goes that last forever
I am spending my time with you – and finally found the truth

A: It was here – no one told me
It was there – no one showed me

B: It was me – no one told me
It was you – no one showed me

A/B: The way you're loving – and you're living
You are showing me the beauty of this place
